7 am my time 🙌🎸 So excited. Request Request. Please do that song about making noises where we sing along. Any Sing along songs are my request. You brought so much joy to my morning and I carried it all through the day and it spread to everyone I came in contact with. I have not laughed that hard since the germ that I shall not give a name or power too. Bless you AKA Ch'Lu for bringing so much Light, joy, and laughter to this universe.
